

Erasmus+: Cooperation partnerships in higher education

Collaborative e-platform for innovation and educational enhancement in medical engineering

Pr. No: 2022-1-RO01-KA220-HED-000087703

Student Lectures, fall 2023.

The CALLME (Pr. No. 2022-1-RO01-KA220-HED-000087703) team from Serbia conducted several lectures and training for students using the learning platform during the fall of 2023. The students were introduced to the NEM platform and its possible applications, and also they were introduced to the learning platform prototype. They used NEM to create several courses. The platform was used as a tool for creating courses and surveys. The UNI team left the platform open so everybody could test its functionalities. The platform surveys will be conducted at the beginning of the summer semester.

Two professors, four assistants, and around seventy students were engaged.
